Hi, what can I help you with?

How can I take classic pumpkin pie to the next level this year?

Take Your Pumpkin Pie to the Next Level

- Upgrade the crust**
Swap traditional pastry crust for a gingersnap, graham cracker, or pecan crust for extra fall flavor.
- Add a crunchy topping**
Top with a brown sugar pecan streusel before baking, or sprinkle toasted pecans over the finished pie.
- Level up whipped cream**
Try maple, cinnamon, or vanilla bourbon flavored whipped cream for a simple upgrade.
- Drizzle on delicious**
Add a little salted caramel, maple syrup, or warm chocolate drizzle to the top.
- Brûlée the top**
Sprinkle a thin layer of sugar over a chilled pumpkin pie and carefully caramelize it with a kitchen torch for a crackly topping.
- Add a hint of maple**
Replace a portion of the sweetener called for in your favorite recipe with pure maple syrup.
- Get creative with crust**
Cut leftover pie dough into tiny leaves, pumpkins, or acorns, bake them separately, and use them to decorate the finished pie.
- Make it à la mode**
Serve warm pumpkin pie with vanilla, butter pecan, cinnamon, or salted caramel ice cream.
- Create More Crunch**
Serve it with candied pecans, crushed gingersnaps, or toffee bits sprinkled on top.
- Create a topping bar**
Put out whipped cream, caramel sauce, chopped pecans, mini chocolate chips, cinnamon, and cookie crumbles to customize.

Beware of Energy Vampires!

Energy vampires, or—equally creepy—phantom loads, are devices that consume electricity even when turned off or not actively in use. According to the U.S. Department of Energy, this accounts for up to 10% of residential energy use and costs billions of dollars annually. A few simple tricks can help keep those sneaky “energy vampires” from haunting your utility bill.

The Biggest Energy Vampires

- TVs, DVR/cable boxes & gaming consoles
- Microwaves & coffee makers
- Computers & chargers
- Appliances with digital clocks
- Smart devices & security systems

Scare Away Wasted Energy

- Unplug unused or rarely used electronics
- Use smart power strips or plugs
- Switch gaming consoles and TVs to energy-saving mode
- Upgrade to ENERGY STAR®-certified appliances

October Haunted House To-Dos:

- ☐ Go on a 5-minute “vampire hunt” and see what devices are secretly sucking power, take steps to reduce your home’s energy waste.
- ☐ Change the direction of ceiling fans to clockwise to push warmer air down.
- ☐ Clean/replace HVAC filters for maximum efficiency.

Be Our Guest! Holiday Hosting Tips

If holiday overnight guests are headed your way, a few thoughtful touches can make your home feel almost as comfortable as their own.

Create a Welcome Station - Place a small tray or basket on the nightstand or dresser with bottled water, a snack, tissues, a phone charger and your Wi-Fi password.

Give Luggage a Home - Set out a luggage rack, bench or sturdy chair where guests can place their suitcase. Clear a little closet space and provide a few empty hangers too.

Stock the Bathroom - Fill a basket with often forgotten items such as travel-size shampoo and conditioner, body wash, toothpaste, a new toothbrush, disposable razors, cotton swabs and other basics.

Think About Bedtime Comfort - Provide extra pillows and blankets and show guests where they can adjust the temperature, if appropriate. A small night-light can be especially helpful in an unfamiliar home.

Plan for Early Risers - Let guests know where to find coffee, tea, mugs and a simple breakfast or snack. That way, early risers can help themselves.

The best guest rooms aren't necessarily the fanciest. They're the ones that make visitors feel comfortable, cared for and truly at home. **Happy Hosting!**
